

Jason is a dynamic, versatile, hardworking facilitator and program developer, able to quickly coach individuals to new competencies through engaging and exciting interactions. His passion for helping others to succeed is matched only by his unstoppable work-ethic. He works well with a wide range of ages, backgrounds, and abilities, and is able to create lasting connections. He works well with a team and is able to adapt quickly to an ever-changing array of circumstances and conditions to keep any project moving forward.

Professional Experience

Facilitating and Public Speaking

Used excellent public speaking skills in a classroom environment to assist people to a higher understanding of themselves, a deeper personal belief system and to develop a plan to move forward with their lives.

Interacted and facilitated in a therapeutic group setting, sharing experience, fostering strength and hope for recovering addicts.

Spoke in public forums and gatherings advocating on behalf of the marginalized, garnering support for innovative community initiatives.

Designed and facilitated a series of computer literacy courses resulting in a basic proficiency for more than 60 clients.

Program Development / Management

Developed and updated social programs increasing participation and retention by 47%.

Worked as a part of a team coordinating more than 600 volunteers collecting 100,000+ food items in one day for citizens in need in St. Charles, Lincoln and Warren Counties.

Co-founded an organization to coordinate the efforts of more than 30 social service organizations serving ex-offenders

Led a team to achieve the rank of semi-finalist in the Social Enterprise Innovation Competition at Washington University's Skandalaris Center for Entrepreneurial Studies.

Marketing and Sales

Developed and utilized web-based technologies to improve customer relations and deepen consumer confidence while improving reliability and reducing overall cost in man-hours.

Developed crucial relationships with key OEMs to bring a lagging territory to profitability.

Brought together people from diverse backgrounds to financially support social projects in many environments.
